Subject: Microsoft Settlement

Greetings,

My name is Michael S. Toohey and I want to protest the Proposed Final Judgement that will be handed down in the Microsoft Anti-Trust Trial. There are many items wrong with it and I beg the court to reconsider it. Microsoft continues to utilize business practices that allow it to "snake" around the law. Slapping Microsoft on the wrist is something that should not be done again. Microsoft will "snake" away from the Final Judgement by focusing away from the Operating Systems in Definition U of the PFJ and focus on other items in a monopolistic manor. These tactics will hinder innovation for other devices, hence hindering the productivity of the American People.

Thank You for your time.
